

DAY OF PRAYER

Several years ago, a lady told me that after praying with her through some generational prayers she thought many other women at the rehab center would be helped by these kinds of prayers. So I started to compile various generational prayers that had helped me personally. I also scanned through the prayers of various ministries I had come to know. As I put together a PowerPoint of the prayers and other healing issues, I realized that many people might not understand some of the terminology I was using—*generational iniquity, the Heavenly Court, the evil cosmic realm, praying from the Father's hand through the womb*, etc.

So I developed a teaching section at the beginning of the PowerPoint. I started with basic Christianity for those new to faith or even those who had never accepted Jesus as Savior and Lord. I tried to make it simple and used the clearest Bible translations for the passages for ESL students or students who struggled with their reading/language skills. Should the Lord bring a revival and many people become Christians, this would be an easy way for new believers to learn about Christianity and then immediately go through the extensive prayers renouncing past generational iniquity and at the same time repent of their own sins. This then would allow them to process early childhood wounds without the interference of generational iniquities and evil spiritual attachments as well as gives them an opportunity to confess their own sins and be cleansed with the blood of Jesus.

My current thought: For those who wish to meet and go through the PRAYERS: you would first read the Teaching section online (I don't have it online yet), answer the questions on a quiz, and contact me for an appointment. If you're working with a pastor, prayer minister or counselor who have a healing and deliverance background, they would need to go through the prayers with me, or someone else trained to do this first before they could go through the prayers with you. (I hope to put this on my website soon!) Please write me a note on the contact page if you are interested in taking someone through the prayers or going through them yourself.

I would love to hear from you about your ideas on how the Lord might use this in your ministry or in the Body of Christ for the furtherance of His Kingdom and the freedom of those who long for the abundant life!
